Three More Schools Ask For Merging

WISE CHAPEL, SWEDONIA AND DOVIE TO VOTE ON SCHOOL CONSOLIDATION JULY 13

Three more Hamlin area school districts will vote on the question of merging with the Hamlin Independent School District July 13. During the past four months three other districts have been consolidated with the Hamlin district.

Scheduled to vote in the July 13 election are Dovie, Wise Chapel and Swedonia. Carlton, Neinda and Celotex were merged in previous elections this spring.

Petitions for calling the three new district mergers were submitted to county judges of Jones and Fisher Counties on June 17. Dovie is five miles northeast of Hamlin, Wise Chapel is seven miles southeast of Hamlin, and Swedonia is eight miles southwest of Hamlin in Fisher County.

Involved in the proposed merger in July are the following statistics for the three districts: Dovie, with an area of 11 square miles, has a property evaluation of \$134,280, and this year enumerated 37 scholastics; Wise Chapel, with an area of 19 square miles, has property valuation of \$139,710, and 69 scholastics; and Swedonia, with an area of 39 square miles, listed \$387,080 in property values and 33 scholastics.

Hamlin Independent School District, with an area of 25 square miles before any consolidation, this year had \$1,950,523 in property valuations, and counted 653 scholastics.

Already consolidated are the following districts: Carlton, with 16 square miles in the district, \$138,970 in valuations and 35 scholastics; Neinda, with 16 square miles, \$158,865 in property valuations and 70 scholastics; and Celotex, with 15 square miles, \$421,810 valuations and 127 scholastics.

Floyd McCoy Jr. Takes Place at Baptist Church

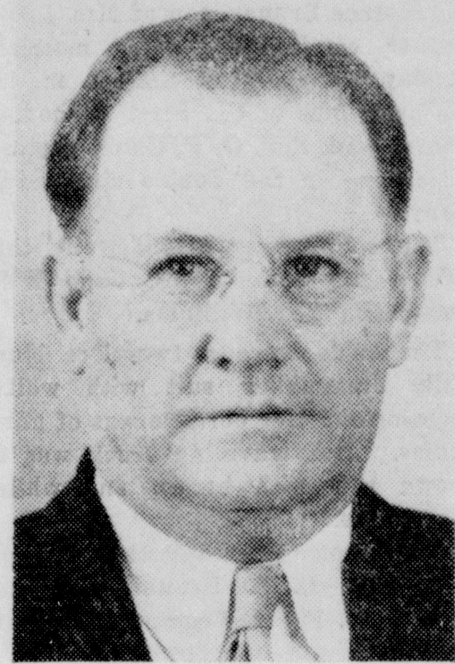

Place of educational and musical director of the First Baptist Church in Hamlin was assumed last week by Floyd D. McCoy Jr. of Winters, according to announcement by Rev. John H. Osteen, pastor.

McCoy, who served for two and one-half years in the Army Air Force, was a member of the Eighth Air Force in England, operating as a navigator of a B-17 bomber over the continent. He received his discharge October 11. He reentered Hardin-Simmons University, Abilene, where on June 3 he received his bachelor of arts degree.

McCoy and his wife have moved to Hamlin.

Visiting in the home of Mr. and Mrs. T. Don Gould on Father's Day were Mrs. Gould's parents, Dr. and Mrs. G. W. Baker of Walters, Oklahoma, and Dr. Gould's parents, Dr. Q. D. and Beulah Gould, of Stamford.

PLASTERCO SPEAKER

Evangelist who will lead in a 10-day revival meeting at the Plasterco Baptist Church is Rev. W. T. Priddy, above, pastor of the East Side Baptist Church at Haskell. The series of services, to be held at 10:30 a. m. and 8:00 p. m. each day, will begin Friday, July 5, instead of Friday, June 28, as announced by Plasterco church officials in last week's Herald.

McCAULLEY TAKES LEAD IN SOFTBALL LEAGUE STANDING

With completion of a little more than a week of matched play in the Hamlin Softball League being sponsored by the Hamlin Junior Chamber of Commerce, standings in the league were beginning this week to square off in pretty good baseball form.

Of the 12 scheduled games in the league so far, four games had not been played because of rain and other causes, Jaycee officials announced. These four games will be made up within the next several days, it is announced.

McCauley, with three games behind the team, took command of the top rung in the standings with no losses. The Jaycees, with two wins and no losses, and Celotex, with one win and no losses, also maintained perfect standings. Three teams had not won a game through Tuesday night.

Games played so far revealed the following results:

McCauley 8, Radium 4.
VFW 15, Yellowjackets 1.
Flat Top 7, Radium 12.
Fire Boys 2, Jaycees 23.
Oilers 2, McCauley 7.
Celotex 11, Flat Top 9.
Oilers 5, Yellowjackets 1.
VFW 4, McCauley 8.
Jaycees 19, Radium 6.

League standings, counting Tuesday night's play, look like this:

Team	W.	L.	Pct.
McCauley	3	0	1.000

Celotex	1	0	1.000
VFW	1	1	.500

11 Legionnaires Go to Convention for District

Eleven Legionnaires represented Hamlin Saturday and Sunday at the 17th District convention at Mineral Wells, when the largest attendance of recent years attended the annual confab. Good entertainment and other program features made the convention of the American Legion and the American Legion Auxiliary an enjoyable affair, attendants reported on their return Sunday night.

Going from Hamlin were Legion Post Commander Joe L. Culbertson, Van Huling, Doc Davidson, Arlie Cassle, Oscar Williams, Mr. and Mrs. Homer Rainey, Mrs. Florence Cowan and Mrs. Ross Fomby.

Mr. and Mrs. ePte Moore of Odessa spent the week-end with his father at Hamlin. Recie Stone came back with them to spend the week-end with hr parents, Mr. and Mrs. C. B. Stone.

Crops Look Fine as More Rains Come

WEEK-END BRINGS MORE THAN INCH OF MOISTURE TO KEEP COTTON, GRAINS GREEN

Jupiter Pluvius seems to be smiling on this part of West Texas again, and has been sending down rains in nice installments during recent days. His remembrances are making the row crops that are giving vent to growing pains "perk up" and get into crop producing strides.

Following last Tuesday night's rains, which were reported in last week's Herald as totaling 1.22 inches—three more showers came within the next four days to give the area soil a drink—and cool things off for short periods from the summer heat that has really borne down recently. Wednesday night's showers were gauged by Government Gauger W. C. Rountree at .31 of an inch. Saturday night rains totaled .19 of an inch at Hamlin, and Sunday showers measured .05 of an inch.

Better rains were reported in other parts of the Hamlin section. Country north and northwest to Spur, which has had very little rain this year, received up to three and one-half inches of rain during the week-end.

Cotton in the Hamlin area is looking mighty fine, most of it being from two to eight inches in height. No marked infestation of insects is reported so far, but producers are alert to the possibility of infestation.

Head grains are likewise "in the pink." The showers have really put the stalks on a growing rampage. Average maize, hegari and kafir is knee high and up to waist high.

151 Carloads of Wheat Shipped in 1946 Season

Total of 151 carloads of wheat had been shipped from Hamlin market points through Tuesday of this week, according to a check-up of grain buyers by The Herald. Still a few fields of grain had not been harvested, but probably 90 per cent of the grain was out.

Numbers of growers continued to hold quantities of grain in farm and local storage. Although it is difficult to estimate the storage, several grain producers and other interested in grain estimated the stored grain at between 50 and 75 carloads. Even with a 60 carload storage estimate, this would make production in the Hamlin area total 236 cars.

OVER \$2100 RAISED IN FOOD COLLECTION DRIVE IN HAMLIN

Vast majority of the citizens of Hamlin still have not responded to the appeal of millions of starving people of the rest of the world, C. C. Bailey, chairman of the Emergency Food Collection campaign, reported Thursday morning, although more than \$2,100 in cash donations had been reported in the local drive.

Of the \$2,100 reported, the First Baptist Church reported collections of \$1,976 toward the fund, and congregation officials said a check for at least \$2,000 would be sent from the church. The church's contribution will be sent through the Southern Baptist Convention, however, will be counted on the Hamlin quota.

Church of the Nazarene reported \$50 would be given the local committee as result of offering taken at the church Sunday morning.

Others donations made direct to members of the finance committee made up the balance of the \$2,100-plus reported so far.

Bailey reported that the closing date of the drive had been extended to June 30, and urged other Hamlin people to have a part in this Christian work of assistance to peoples of the world.

Tommy Carpenter Gets Order of Arrow Award

Tommy Carpenter, son of Mr. and Mrs. Fred Carpenter of Hamlin, was one of 43 Boy Scouts in the Chisholm Trail Council area selected to receive the Order of the Arrow. Awards were announced Friday night at the closing ceremonies at Camp Tonkawa near Buffalo Gap.

Scouts are selected secretly and are subjected to an ordeal comparable to that of the Indian brave, according to Paul M. Ireland, Scout executive of the Chisholm Trail Council, in an effort to test their self reliance and their ability to take the "bitter with the sweet."

New Sugar Stamp to Be Validated for Canning

Hamlin area housewives were encouraged this week to arrange for more fruit canning when announcements was made over the week-end that an additional sugar stamp, number of which has not yet been designated, will be validated for use by July 1. Announcement came from A. Foy Curry Jr., sugar rationing officer for the Fort Worth OPA district.

In a previous announcement, the OPA said that stamp No. 9 is to be used for domestic canning on a five-pounds-per-person basis.

Architect Contract For Hospital Made

A PATIENT PATIENT

The next four months do not look so pleasant to Frankie Sue Madden, 12-year-old daughter of Mr. and Mrs. H. W. Madden of Hamlin—but she is willing to pay the price for a straight back.

Frankie Sue left this week for Hendricks Memorial Hospital at Abilene, where she will undergo an operation for a crooked spine. Following the operation she will be placed in a cast for four months, two months of which time will be at the hospital.

She hopes to be ready to enter the eighth grade late in the fall after she has been removed from the cast—with a straight back.

DEED FOR LAND FOR HOSPITAL DELIVERED—MEMBERS IN UNIT STILL ACCEPTED

Recent action of the directors of the Hamlin Hospital Association now makes it appropriate to tell everyone interested that the hospital building is a certainty.

A deed, dated June 22, 1946, signed by F. B. Moore, for the heirs of the late R. D. Moore, conveys Block 41, West Moore Addition, to the Hamlin Memorial Hospital Association without restrictions or limitations. The deed is now filed for record in the county clerk's office in Anson.

The block of land for the hospital is two blocks north of the Hamlin-Rotan highway in West Hamlin. This places the building to face south on Third Street and east on Park Avenue, a new street just graded by the city this week. Park Avenue is destined to be one of Hamlin's prominent north-south avenues.

The City of Hamlin will extend to the hospital site all-weather streets and sewer and water lines. Electric and gas lines will soon reach that part of town.

A contract has been signed with M. T. Clements, architect of Wichita Falls, to provide at once building blue-prints and specific building instructions for letting the construction contract. It should not be long until brick, tile, gravel, sand and steel will be on the hospital site. Getting ready to build takes time, as well as doing the work after it starts. No unusual trouble is contemplated in getting a permit to build and materials for the structure, however, we may expect some delays on some items.

First unit of the hospital building is to be 32½ feet wide and 96 feet long, with the center section having a width of 52½ feet to provide ramp elevations and ambulance entrance. Everything possible within reach of a cost of \$40,000 will be incorporated in the first unit. Great pains have been taken to start off with a sure cash basis to get the best for our money.

Membership in the hospital association will remain \$50 per family until further notice. But this much can now be revealed: The future demands on the hospital will call for more and more rooms and equipment. All this must be built and bought solely from membership in the association. A membership price can be used only for building and equipment. It is one of the best investments any family can make if they are in reach of this hospital. Now is the time to get in on the charter membership list at \$50. Over 400 families have already joined and their money is now consigned to actual construction of a building. As soon as certificates of membership can be received from the engravers, they will be delivered to each and every family who have paid in their \$50. Then later a copy of the constitution and by-laws will be delivered each family so they may know just how the organization is set up and what the advantages really are to the families who have made advance arrangements for their health care.

Any further information can be had by phoning 165 or addressing Hamlin, Box QQ.—Bowen Pope, Secretary-Manager.

Joe Mosers Moving to Place at Colorado City

Joe Moser and family are slated to move this week-end to Colorado City to make their home. Moser, for several years a Hamlin resident, was salesman for the Moser Produce Company for this area. At Colorado City he will assume management of the Moser concern, one of West Texas' leading distributors of fresh fruits and vegetables.

Moser has been active in civic and community affairs at Hamlin. He promises to come back to visit his friends here occasionally.

WORK ON SCHOOL MOVES ON DESPITE LACK BEAM STEEL

Lack of steel for building beams is not stopping progress of work on the new \$125,000 elementary school building in Northwest Hamlin. Practically all the footings for the front facing of the new structure will have been completed by this week-end, representative of T. E. Shelburne & Son, contractors on the job, stated Tuesday. Forms for all the building beams also will be ready by the latter part of the week.

On arrival of the beam steel, which has been promised by July 1 by suppliers, pouring of the beams can be done in rapid order, because forms will be ready for a big run.

Task of cleaning brick taken from the old school building dismantled on the site will be completed within two weeks, work officials declare. About 139,000 brick had been cleaned Saturday night by a crew of men and boys. Approximately 250,000 bricks will be salvaged from the old building.

Little additional brick will be needed to complete the new building. The new building will be stuccoed on the outside and plastered on the inside.

Foundations Being Run On Dressing Room Unit

Foundations for the new addition to the dressing room facilities at Pied Piper Field in Southwest Hamlin were being poured this week, according to word from officials of Hamlin High School.

A building 77 by 10 feet will be erected at the field to provide an office for business transactions at the field; a store room for field equipment, such as tools, water hose, mowers, etc.; and two large dressing rooms for contesting teams during the football season.

Funds for the addition are being provided by sale of \$10 vouchers that will be redeemed from receipts of football games by January 1, 1948.

Nightwatchman Averts Jewelry Store Robbery

Robbery of the Witt Jewelry Store was probably averted last Thursday night when the city nightwatchman, C. R. Branscum, in passing the place of business, noticed a young man in the store. It was about 4:30 in the morning, Branscum reports when in making his rounds he looked in the front of the store and noticed the lad, who apparently had entered the place only a few minutes before.

The boy fled from the scene, and by the time Branscum reached the rear of th building, where entrance was gained, the lad has vanished.

Nothing was missing from the firm, I. R. Witt, proprietor, reports. Entrance was made through a rear window.

Bill Bowman, who has recently returned fro move seas, has accepted a position at Waggoner Drug Company.

CHOPPING COTTON WITH FLAME NEW IDEA

Hamlin area cotton growers are interested in the use of flame cultivators, similar to the one above that are supplanting field hands with hoes in the task of removing from the cotton rows the choking weed growths which threaten the young cotton plant. The National Cotton Council re-

ports that the flame cultivator, one of the most recent advances in mechanization of cotton production, lowers the cost of weeding cotton by hand from \$5 to less than 50 cents per acre. A metal shield is cupped over the cotton plants, then flames destroy the growth around them.

Specialist Says Cotton Best for Summer

Among helpful hints to the ladies for hot summer days is the statement by Mrs. Dora Barnes, Extension Service clothing specialist at Texas A. & M. College, that lightweight washable cottons with open styling are the most comfortable hot weather clothes.

"Light weight washable cottons are the coolest because cotton absorbs an evaporates moisture more readily than any other fiber," Mrs. Barnes told the National Cotton Council.

Mrs. W. C. Eoff and son, Clifford Jr., are visiting friends and relatives at Dallas and Mineola.

How women and girls may get wanted relief from functional periodic pain

Cardui is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

- 1 Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come.
- 2 Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes.

Try Cardui. If it helps, you'll be glad you did.

William B. Teague, District Clerk, Enters Representative's Race

To the Voters of Jones County: After serving one term as district clerk of Jones County, I am now offering myself for state representative of the 115th Representative District, composed of Jones and Shackelford Counties.

I am 27 years of age, married and have one child two years old. I served four years in the Army Air Forces, receiving an honorable discharge in 1943. I served two years as a radio operator and two years as a pilot, losing my left leg on a combat mission in New Guinea.

Our state is now in good financial condition, and it can be kept that way and still be progressive. Economy and progress are both essential to any good government.

I make no promise of a hundred things, but instead promise only to represent the people of this district. I favor higher salaries for school teachers, to be paid partly by state aid. I also favor the establishment of a first rate negro university in Texas, to include a medical school.

I do not favor repeal of the ad valorem tax nor do I favor the addition of a host of new taxes.

I favor removal of the \$35,000,000 limitation on expenditures for old age assistance, child welfare and assistance to the blind and the payment of \$40 per month to every needy old person. Also there is entirely too much expense and red tape incurred in administering this fund, which can and must be reduced.

I favor reduction of the number of state senatorial and representative districts to one-half the present number. This can be done without impairing the representation of any people or section of this state. I favor redistricting of this state in this manner.

I will favor legislation which will make it possible for war veterans to purchase, for family size homes, on low rate, long term loans, through the state, the hundreds of thousands of acres of land in Texas now owned by the federal government.

I have sincerely appreciated the opportunity of serving you as district clerk, and if elected as your state representative I shall serve you to the best of my ability. I shall be happy to discuss any issue in full during my campaign.—William B. Teague, Candidate for State Representative.

Bill Blanton is the only candidate for Congress who served overseas as an enlisted man. He will take the viewpoint of the ex-overseas-GI to Washington. He will be the best friend the ex-GIs have in Congress. He understands their problems because he is one of them. (Pol. adv.)

Former District Judge E. J. Miller Announces For Court of Appeals

E. J. Miller, former district judge of the 35th Judicial District, this week announces his candidacy for associate justice of the Court of Civil Appeals, 11th Supreme Judicial District, Eastland, in the following statement:

For some years I have entertained an ambition to serve upon the Court of Civil Appeals but had no idea of becoming a candidate for such position this year until Judge Courtney Gray withdrew. I regret very much the circumstances and conditions which have impelled him to announce his withdrawal. I will conduct an active campaign from now until the July primary.

This district is composed of 22 counties; is more than 200 miles long, extending from Dawson County on the northwest to Erath County on the southeast. With about 30 days for the campaign, I cannot hope to see personally more than a small per cent of the voters. I solicit your investigation and consideration and will appreciate your interest and support.

I was reared on a farm in Callahan County, spent two years in Simmons College, two years in State Teachers College, taught school five years, for many years an active Odd Fellow. Am a deacon in my church, and a member of the Howard Payne College board. I was for five years president of the Comanche Trail Boy Scout Council.

Having been in active private practice 25 years, practicing in all state courts, and in the district court and Circuit Court of Appeals of the United States, and having served 12 years as district judge with a record above the average, I feel that I could render satisfactory service upon the Court of Civil Appeals and thereupon submit my candidacy.

Respectfully—E. J. Miller.

THERE'S NO SUMMER SLUMP IN HAMLIN

True, building materials are still in a critical classification—but the lack of many building materials—or the scarcity of them—has not kept the ingenious from building right along in the Hamlin area. Many of the older homes and business structures of the community are being rebuilt, additions are being added, and new roofs, new paint or other improvements are being made.

When people have the urge to build, they will find a way. Such a spirit of progressiveness is typical of West Texas. It is this determination that has made this section of the country the finest in the world. Our citizens are full of vision, tenacity, originality, foresight.

That is the reason the future of our section and of Hamlin is no assumption—it is a certainty. Progress and prosperity are natural consequences of such ruggedness, such pioneering, such optimism.

There is no slump in Hamlin's forwardness—and the kill-joys and pessimists will do well to give the town a wide berth.

PRICES WILL BE WHAT PEOPLE MAKE THEM

Indications this week are that within a short time the regulations of the Office of Price Administration will be American history. Millions of conscientious citizens wait with anxiety lest the cost-of-living commodities like food and clothing skyrocket beyond reason.

Yes, prices will be what people make them. Imbued with wild, reckless spending sprees that have been practiced by non-thinkers of the past several months will throw our land into riotous confusion. Thinking citizens will weigh the values of commodities before throwing money away—and prices will adjust themselves.

And here is an observation of The Herald: The people who have put aside some of the cheap money—or invested it in tangible assets like property, life insurance or other securities—are the ones who will weather the next depression that is bound to come after a wild orgy of reasonless spending. Folks who have "blown in" all the money they have handled the past three years will regret their folly.

Folks, consider the cost of a commodity before you pay two or three prices for it. Make your purchase worth the price. Pass up an item that is over-priced, if you can.

TAKE TIME FOR RELIGIOUS PRACTICES

Ours is a busy world that seems to more and more crowd out the better things of life—if we permit it. Few of our people seem to take seriously their religious obligations nowadays.

We have only to look back one or two decades to remember when our churches were crowded on Sunday evenings, even in the days when transportation to church services was a major problem. Observations at Hamlin churches any Sunday night will prove that a majority of our so-called loyal church members are not proving their loyalty by attendance at religious exercises.

The gospel story has not grown old—it has all the fervor and soul-saving power it always had. Our people are not letting Christianity's message have sway in their lives.

"If you love me you will keep my commandments" will find a great majority of Hamlin's church members violating the Sabbath keeping laws. A regular church attendant remarked the other day: "Whenever I have to miss a church service I am reminded of the song that asks: 'If He (Jesus) should come at the dawn or midnight, would He find you and me still watching?'"

TOURIST TRAVEL THROUGH HAMLIN GROWS

The American people are on the move again—vacationing, visiting relatives, making business trips by automobile—in spite of the scarcity of new cars and new tires. Traditional ingenuity finds a way of fixing up the old cars so the family may get out on the open road.

And Hamlin, located as it is on a vital crossroads of highways, is coming in for her share of visitors. Traffic on the important Highway 183 that runs north and south through Hamlin, winds one of the straightest paths down from Canada and reaches nearly to South America in the Western Hemisphere. Popularity of the route is becoming publicized by travelers, who more and more are becoming America-minded rather than U. S.-minded. Destined to carry thousands of our populace into Southern regions in the next decades, Highway 183 will be one of Hamlin's new diversifications.

Tourist trade can definitely be counted on as a community's source of income. In Hamlin's case, the tourist business of the future may be called supplemental to our cotton, grain, livestock, gyp products and oil as a source of income.

Our already established reputation of friendliness can be augmented by more modern tourist courts or camps, expanded hotel and restaurant facilities, modernized service stations and other places frequented by our autoist visitors.

WHAT CONTEMPORARIES ARE SAYING

TRUMAN IS STANDING UP WHERE IT COUNTS

If President Truman is right, and he really means right, we are for him. But, heretofore he has been playing fast and loose, it seems to us, with labor and capital. We are just exactly like you or any other American citizen: If we feel like criticizing or extolling even the president, we have a right to do so, so long as we are decent in the matter.

Some of the people who really believe we are having too many strikes—most of them foolish and unwanted by anyone except John L. Lewis and the others of his ilk, who are fattening their pocket-books while the rows go on—of course, have been distasteful in the extreme to people who have spent their lives to get what they have, working like slaves to boot.

There is no sense in some of John L. Lewis' doings, and any sensible laborite will admit it if he will only stop and think. True, he has done some good things. A person just has to have redeemable features, else he will not live long in this country of ours. But it would be a mercy on the country if John L. would resign and then take his millions he has squeezed from the laboring classes and go away back and sit down and stay down!—The Stamford Leader.

REPORT OF TRIP TO BOYS' STATE GIVEN BY JOE CLEMENTS

Joe Clements, who was sent to the Lone Star Boys' State demonstration in government first of the month by Hamlin Rotary Club, reported on his trip to Austin at the Wednesday noon luncheon of the civic group at the Morgan Hotel.

Receiving the third highest number of votes for elective offices filled by the 312 boys from all parts of the State of Texas, Joe was elected associate justice of the Supreme Court. He reported going to the Supreme Court at Austin, conferring with members of Texas' highest court and sitting at the bench during two sessions of the model government staged by the boys at the capitol.

Joe declared he learned more about his government during the week's stay at the capitol than he had learned in several years of school. He was a member of the Pioneer party.

President Tom Teague announced he would drive his car to the district Rotary Assembly at Childress on July 6, and urged others to join Secretary C. G. Green in accompanying him to the gathering.

Guests at the Wednesday luncheon included Bros. J. T. Marlin and Ross Spears, who are leading in a revival meeting in Hamlin; Rev. Jack Carter of Bethany, Oklahoma, also conducting a meeting in town; Charles Gardner, Joe Clements and Willard Jones.

June Marie Hurley of Arlington and Bobbie and Janelle Knuckles of Abilene are spending the summer with their grandmother, Mrs. C. E. Watson of Hamlin.

All stock for the rodeo will be furnished by Bill Lyons of Petrolia. Three hundred and eighty head of fresh, rough stock will be used in the various events this year, according to Lyons. Included in the group are 75 Brahma calves recently bought in Houston, 55 head of bucking horses, 30 head of Brahma bulls, 75 head of milk cows, 75 head of calves for the old-timers' roping contest, and 70 head of yearling cutting stock.

Old-time cowboys come from all parts of the nation to visit with old friends during the Texas Cowboy Reunion celebration. The Texas Cowboy Reunion Association is an organization of old-time cowboys, and is a separate and distinct entity from the Texas Cowboy Reunion, Inc. The meeting of the association will be held at the bunkhouse at 10:00 o'clock a. m. July 3. At this meeting there will be reports of officers, memorial for deceased members, and a general discussion for the good of the order. Every member is expected to attend. ELECTRICITY IS IN GOOD HANDS!

In spite of heavy tax contributions to help win the war—increases in cost of materials and supplies, together with increases in labor costs, made necessary in turn by increased living costs—

Electric service is still the smallest item in the household budget.

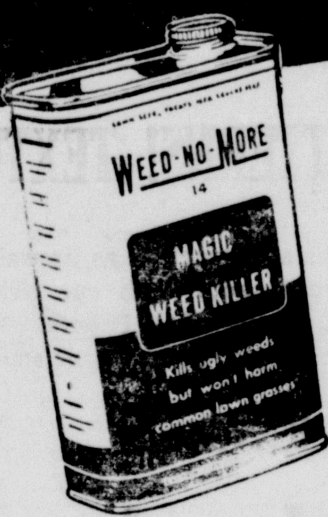

The electric dollar now buys 50 per cent more service than it did even 15 years ago.

Technical developments in production and distribution of electric energy under private management and initiative have made these lowered costs possible.

SADLER POINTS TO INEQUALITIES THAT WEST TEXAS BEARS

Doyle Dean, one of three boys from Hamlin attending the annual Boys' State, supervised government demonstration at Austin, several days ago at Austin, gave a report at the Hamlin Lions Club Tuesday noon at the Morgan Hotel. Dean's expenses to the institute were paid by the civic club.

Doyle, a member of the Longhorn political party, was elected calendar clerk in the House of Representatives and chief clerk in the Supreme Court. He reported the trip was inspirational, and thanked the club for sending him. He gave a resume of the sessions, which included the state's government program carried out by 300 boys of Texas.

Harley Sadler of Sweetwater was a guest of the club. He made an impromptu talk to the group, among other things saying: Texas is out of debt now and cannot legally enter a deficit period such as has plagued the state many times in the past except by four-fifths votes by both state houses, which is unlikely, he stated.

"Texas badly needs redistricting," Sadler stated, reminding his hearers that "West Texas, with one-third of the population of Texas, has only 20 per cent of the representatives in its government. Fifty counties of Texas—none in West Texas—are now receiving state tax remissions, making West Texas pay 25 per cent more state taxes than it should."

It was announced by President Art Carmichael that officers for the new fiscal club year will be installed at next Tuesday's Lions Club luncheon, and the new officials will assume their duties July 1.

Guests at the Tuesday luncheon included J. C. Beatty of Lubbock, J. T. Marlin of Oklahoma, Rev. Dan Jones, Harley Sadler of Sweetwater and Clifford Reynolds Jr.

Sound Picture to Tell Story of Zacchaeus at Baptist Church Sunday

"No Greater Power," a sound picture produced by a professional film company especially for use in church assemblies, will be shown at the First Baptist Church Sunday, June 30, at 7:00 p. m., congregation officials stated Tuesday. It will serve as the opening exercise to the Training Union. The public is invited.

Produced with attention to accuracy of historical detail by Cathedral Films, this picture tells the dramatic story of Zacchaeus. The story, which is based on Luke 19:1-10, is as follows: As a result of an introduction supposed to have been provided by Matthew, Zacchaeus, a poor potter, is appointed tax collector and rises to great wealth, but is scorned by his fellow citizens. After meeting with Jesus, Zacchaeus repents his greed and gives away his wealth. Acting as excellent, and the picture will bring before everyone problem of the acquisition of wealth versus Christian living.

Hamlin Colored Team Defeated by Sweetwater

Hamlin's colored baseball team, the Invaders, finally dropped another game Sunday—their second defeat in 15 games this season—when Sweetwater took the big end of a 10 to 4 count at Sweetwater.

Pitcher Victor Lewis of the Invaders poled a home run, while the Sweetwater nine swatted out four circuit-makers. Sweetwater got only four other hits. Hamlin batters batted out only three safeties.

Stamford will come here Sunday afternoon to meet the Invaders at the city park at 3:00 o'clock.

Mr. and Mrs. Jess Young and daughters, Naomi Ruth and Barbara Lou, and Louise Proctor are visiting relatives in Los Angeles and San Francisco, California.

INDEPENDENTS WIN FROM FAST MERKEL NINE SUNDAY 12-2

Hamlin Independent baseball team showed the boys from Merkel who came over Sunday afternoon how the great old American game is played, and sent them home with the short end of a 12 to 2 count. G. C. Black, doing the tossing chores for the locals, allowed only three hits by the Merkel tribe, and struck out nine of the batters who faced him.

Walker gave up 10 bingles to the Hamlin boys and struck out six of the would-be hitters. The Merkel win makes six wins for the Independents, who have lost one game and tied one.

Game with Abilene last Saturday was rained out. Hamlin will play Merkel at Merkel Saturday afternoon, meet Sweetwater Sunday afternoon at Sweetwater, and will play the Stamford nine July 3 and 4, each tilt beginning at 3:00 o'clock. Brad Rowland Sr. is manager of the team.

Cotton Is the Ace Card.

"Cotton is the ace card in the hand of the farmer. Because we have seen cotton become a life-saver many times for farmers whose plans to grow other crops had not worked out, we believe that cotton should have a definite place in farm plans every year."—Farming for Profit.

"You'd have to pay out \$84 a month for 30 years to assure a monthly income as big as the Army gives me FREE on retirement"

Most men don't think of retiring until they're 65 years old. But many thousands of men in the new peacetime Regular Army are going to be able to retire with a life income before they're 40!

Specifically, they can retire at any time after 20 years of service. Their retirement income ranges from half pay after 20 years' service on up to three-quarters pay after 30 years. (Retirement pay for a Master or First Sergeant runs as high as \$155.25 a month.)

An annuity which would pay the same retirement income as the Army pays would cost more than \$84 a month for 30 years — a total of more than \$30,240!

Of course, there are other financial benefits for those who enlist in the Army, too. The Army's educational program alone is worth a lot, for it offers valuable training in any of 200 skills and trades... equips men for good civilian jobs in later life.

Army men receive—without cost—good food, clothing and quarters, as well as medical and dental care. Dependents of men who enlist before July 1, 1946, receive family allowances from the Army. And the soldier himself receives the best pay in Army history.

There are many more reasons why so many thousands of men are enlisting in the Army every day. Every American should know why. You can get the full story—without obligation—by stopping in at the U. S. Army Recruiting Station.

The group discussed matters of interest to the NLFA and land bank. Special consideration was given to a revision of procedures for making appraisals in order to speed up handling of applications for loans.

Breed succeeded B. L. Jones as secretary-treasurer of the Jones County NLFA. Jones, who served the association for many years in this capacity, is associate regional manager of the Federal Land Bank of Houston, serving in the Dallas District.

NOTICE OF ELECTION

The State of Texas, County of Jones: To the legally qualified voters of Hamlin Consolidated Independent School District, Dovie Common School District No. 42, and Wise Chapel Common School District No. 55:

Take notice that elections will be held within said Hamlin Consolidated Independent School District, Dovie Common School District No. 42, and Wise Chapel Common School District No. 55 on the 13th day of July, 1946, at the places and on the proposition more fully set forth in the order of the county judge of Jones County, Texas, substantially as follows, to-wit:

Bill Blanton's Platform Made in Burma Jungles

When Bill Blanton decided to run for Congress he was on the other side of the world, in the Burma jungles. He didn't know whether he would get home, but if he did, there were a lot of things he wanted changed.

At the end of his month-long voyage home, he had his platform clearly in mind. He knew what he wanted done about labor unions, for instance. That is why he hasn't found it necessary to change his platform and adopt a stand on labor unions in the last few weeks of his campaign. (Pol. ad.)
